

XILENCE

Excellence in Silent Technology.

data sheet cases**xilence x2 midtower** model-no: x2

case description

high quality case with extraordinary design.

with this case a new thermal conception has been implemented, as shown on the images displayed here. one specific thermal feature is the installation of the power supply unit at the case's bottom, as to concentrate all heat sources in one place. the heat is efficiently exhausted through the fan duct.

furthermore, the case has front usb for easy access and a hydraulically opening front door.

general data, dimensions and weight

case type:	midtower
form factor:	atx, micro atx
case color(s):	black & silver
certificates:	ce
power supply unit:	without
total height:	440 mm
total width:	200 mm
total depth:	535 mm
weight:	6300 g
5.25" external:	3x
3.5" external:	1x
3.5" internal:	5x (1x + 4x hdd)
expansion slots:	7 full size

front connections

location:	front panel, uncovered
usb 2.0:	2x
audio in:	1x
audio out:	1x

additional features

- 1x 120mm case fan included (xilence red wing)
- speaker included
- easy access side panel design, screwless opening
- lockable side panel
- case fan installation possibilities: front 1x 120mm, back 1x 92/120mm
- with air duct for efficient heat exhaustion
